

Remitly App in ChatGPT is Now Available

Description

At Remitly, we know a lot goes into a transfer before you ever hit send.

What's the exchange rate today? How much money will arrive after fees? How quickly does it need to get there? What delivery options are available?

Remitly is Now in ChatGPT

We're bringing the answers you need into one of the most widely used AI platforms in the world. Just type @Remitly into your chat and ask.

You'll get current exchange rates and delivery options for your destination right there in the chat, before you're ready to send.

"Sending money should feel straightforward, not stressful," said Ankur Tiwari, VP of Product at Remitly. *"The Remitly app in ChatGPT puts the information our customers need like rates and delivery options so they can make confident decisions before they send."*

The Remitly app in ChatGPT lets you:

- Discover current exchange rates for supported corridors
- Compare delivery methods like bank deposit, cash pickup, and mobile wallet where available
- Explore country-specific options and payout considerations

Good to see you, Sesh.
