

Remitly Business – Now Available to Remitly UK Customers

Posted on August 26, 2025 by Tatiana Wheeler-Brown

In an exciting step to make managing business payments more convenient, we're pleased to announce that business payments are now available for Remitly customers sending from the United Kingdom.

We've heard from business owners like you that existing business payment solutions often feel too expensive, too complex, or simply not designed for the size and needs of your business. That's why we built something different – so you can get the trusted Remitly experience you already know, with dedicated support for your business, and none of the cost or complexity of a traditional enterprise platform.

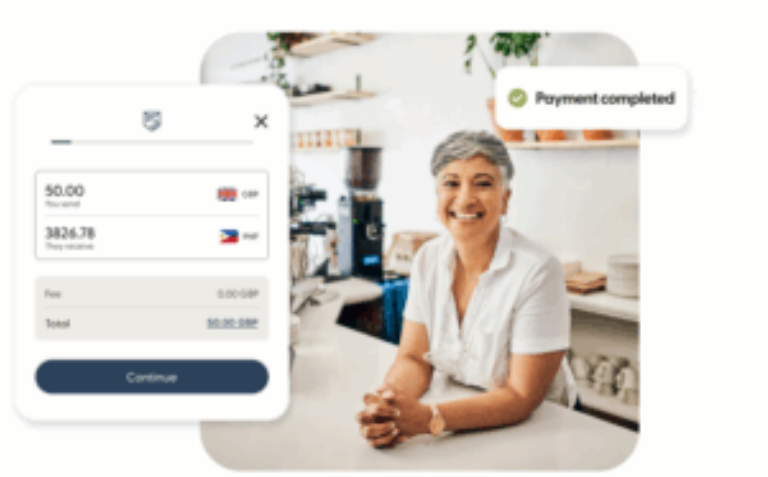

With Remitly Business, you can:

- Pay international contractors and freelancers
- Manage global payroll for remote teams
- Send money to vendors and suppliers abroad
- Support disbursements and one-time payouts

Set up in minutes. Pay in less than an hour. Create a business account and start sending payments in just a few clicks. Onboarding is simple and secure, and payments are often disbursed within under an hour.

No hidden costs. We offer competitive exchange rates with no surprise charges or monthly fees. Unlike some providers, we don’t charge extra for business accounts or support.

Dedicated business support. Our business customers get priority access to knowledgeable specialists who understand the needs of growing businesses. Whether you’re navigating an urgent transfer or setting up recurring payments, we’re here to help.

Business payments are now available for UK-based senders, with additional send countries launching soon. Start sending with Remitly Business today!
