

# Remitly Integrates PayTo to Strengthen Real-Time Transfers from Australia

Posted on April 17, 2025 by Tatiana Wheeler-Brown

At Remitly, we know that when you send money to your loved ones, speed, reliability, and affordability matter. That's why we're working with Australian payments provider Monoova to bring you a faster, easier way to send money using PayTo, Australia's real-time payment system.

With this collaboration, transfers funded through PayTo from your Australian bank account can now be processed typically within minutes – or even seconds in some cases. Whether you're sending to the Philippines, India, Pakistan, or Nepal, your money can arrive quickly and securely, delivering peace of mind.

By integrating PayTo, we've enhanced the way customers in Australia send money, delivering an even faster, simpler experience from the moment you hit 'send.'

This is just one of the ways we're investing in better experiences for our customers in Australia. Demonstrating our commitment to building trusted and affordable options that help keep you connected across borders.

Download the Remitly app to start sending with PayTo and experience faster, more affordable transfers when it matters most.
